WOODWARD REFUSES TO APPROVE QUARANT

Health Officer of District Says
Drastic Regulations Would
Not Check Disease.

(Continued from First Page.)
that "from an administrative standpoint the community is entitled to have the benefits of such experience and judgment rather than be bound by the experience and judgment of one man even though he be the Health Officer."

"In order, however, that my own position may be made clear with respect to the situation," he adds, "it is my duty to say that I do not believe that these regulations, the promulgation of which is here recommended, will prevent the spread of infantile paralysis in the District of Columbia materially if at all."

Dr. Woodward explains his position by pointing to the drastic regulations in force in New York, Newark, and Philadelphia.

"The outbreak in each city, so far as I can learn," he says, "has run and is running just such a course as outbreaks have run in previous years and in other places when no such measures for suppression were in effect."

The proposed regulations provide for the quarantine of all persons in the infected household for a period of two weeks following the outbreak of the disease, and for a period of two weeks following the recovery of the patient, the entire quarantine lasting eight weeks.

Must Obtain Consent.
If members of the infected household are removed to another house they must obtain the consent of the Health Officer and be subjected to a quarantine of two weeks. Transfer of residence to premises in which there are children will not be permitted.

Pupils and persons employed in school buildings will not be allowed in a school building or grounds for two weeks after exposure to the disease. All persons visiting the patient will be compelled to wear while in the sickroom a copy of which is attached to the patient's record, and to keep their hands and face apart from the patient.

Persons in attendance on the patient will not be permitted to prepare food for other members of the family.

Persons other than the attending physicians, nurse, and representatives of the Health Department, a minister of the gospel or the patient's father or mother or next of kin under sixteen years of age will not be permitted to enter the sick room with out permission from the Health Officer.

Heretofore acting on the proposed regulations the Commissioners probably will give a public hearing. Reports of an additional case of infantile paralysis were made to the Health Department today. The patient is a boy eight years old. The case is located in the 690 block Columbia road.

Work on Memorial to Confederacy Begun

ATLANTA, Ga., Aug. 28.—Work on the Stone Mountain Confederate Memorial, which will cost \$5,000,000, and be carved out of the living rock of a great eminence, has been commenced. Gutson Borglum, the noted sculptor, is in charge.

It will take a large force of men about eight years to complete the gigantic task. Special machinery had to be devised for the work, which is said to be the biggest undertaking of its kind ever attempted.

The principal part of the memorial will represent a Confederate Army winding its way around the mountain. Infantry, cavalry, artillery, wagon trains and all other sections of an army will be shown in the solid rock, and they will be so large that they will appear life-size to passengers on the railway a mile off.

Heretofore Lee, Jackson, and other Confederate leaders will be carved and at the base of the mountain a commodious hall, in which the history of the Confederacy will be kept in historical records and relics, will be shown.

Trespasser Arrested In Officer's Bathtub

LONG BEACH, Cal., Aug. 28.—Jose Martinez was booked by the police on the charge of taking a bath on premises other than his own.

Carvante, of the Long Beach police department, discovered the discarded clothing of a man at the foot of the stairs in the apartment where he lives, and upon entering his suite, on the second floor, he heard the merry splash of someone in a bathtub.

The officer found Martinez in the bath tub, attempting to escape, but the officer trapped him.

OIL SHIP LAUNCHED IN THE DELAWARE

First Vessel to Leave Chester Yards
in a Decade.

CHESTER, Pa., Aug. 28.—Ten thousand persons witnessed the first launching of the Roach Ship Yards, when the new 600-foot steel tank ship, the Malmanger, built by the Chester Shipbuilding Company, for Westfall Larsen, of Bergen, Norway, took her first plunge in the Delaware.

Mrs. C. M. F. Jack, wife of the president of the Chester Shipbuilding Company, was the sponsor, and as she broke a bottle of champagne, decked with red, white and blue and the Norwegian colors, over the bow of the Malmanger, there was a bedlam of blasts from tugs, steamboats, and small craft.

The ship, which was launched into the Delaware River from a local ship yard for more than a decade is an indication of the revival of shipbuilding here. Other ships will follow soon.

Finds Shell Buried Since the Civil War

DUKE, N. C., Aug. 28.—Dr. F. R. Ruff has made a very interesting find. A few days ago he was driving past the scene of the battle of Averasboro and saw exposed a partly covered piece of iron. He stopped and investigated and discovered that it was a shell used in the war between the States.

The shell is about four inches in diameter. The opening was stuffed with something similar to paper. This being removed, it was found that the shell was loaded and the powder, when particles of it were applied upon a paper and the match applied, would burn.

Rejected Suitor Shoots Girl and Her New Escort

PITTSBURGH, Pa., Aug. 28.—County detectives and citizens are searching for a rejected suitor who last night shot Miss Elizabeth Crux, eighteen, a cashier at Kenwood Park, and her escort, William Dugan.

Miss Crux and Dugan were returning to their homes in Homewood when a young man confronted them and began firing. Miss Crux was shot in the stomach and may die. Dugan was shot in the right arm and in the back.

Bathing Suit Shocked Censor, Wearer Fined \$5

ASBURY PARK, N. J., Aug. 28.—Too much pink flesh exposed to the view of the morbid public, too little Jersey skirt and too tight tights cost Mrs. Elizabeth Hubner, of East Orange, N. J., just a five case note.

The young woman appeared at Bradley Beach in a bathing costume which was highly pleasing to male bathers, but caused the official bathing suit censor to gasp and then perform his duty.

An estate valued at \$2,785 was left by Edward F. Warren, according to the petition for letters of administration filed in the Probate Court today by his widow, Ida M. Warren.

POPE BEAUTIFYING SIMPLE APARTMENT

Benedict XV. Changing Predecessor's Suite With Renaissance Frescoes.

ROME, Aug. 28.—Workmen and upholsterers are busy turning upside down Pope Benedict's private apartments, removing furniture, scrubbing, painting and decorating. The tastes of the aristocratic pontiff differ greatly from those of his peasant born predecessor, and although austere simplicity may be a fitting setting for "the servant of the servants of the Lord," Pope Benedict XV seems to incline toward the opinion that the vicar of Christ on earth should surround himself with the attributes of awe and majesty.

After having remained on sufferance up to now Pius X's humble furniture, more befitting the abode of a good parish priest than that of a Roman pontiff, and singularly out of place in the handsome suite of rooms glowing with Renaissance frescoes, has been bundled out and replaced by masterpieces of the cabinet maker's art.

In lieu of the simple desk at which

Plus X used to dictate his encyclicals full of primitive Christian love and charity a magnificent creation of the empire period has been installed and rich tapestries adorn the walls to the exclusion of many saints and Madonnas.

Benedict XV does not do things by halves, and his reform is a radical one, extending all over the Vatican palaces, now ruled with an iron hand by the new "maestro del sacri palazzi," Cavalier Beccari, who was formerly the Pope's factotum when Mgr. della Chiesa occupied the archiepiscopal see of Bologna.

Cavalier Beccari is a perfect martinet on court etiquette, and the Noble Guards who had such an easy time under Pius X, who hated pomp and ceremony, are pulling very long faces during their interminable hours on duty.

Workman Cut to Pieces by Power Saws in Ice Plant

PHILADELPHIA, Aug. 28.—Christian Emerick, twenty-four, an employee of the American Ice Company at American and Cambria streets, was literally cut to pieces yesterday when he fell into a pit where several power saws were cutting ice.

Huge cakes of ice slide down an incline at the plant into a trough, where the saws are operated. Emerick tried to cross this trough, slipped and fell.

Silk Workers Strike.

PATERSON, N. J., Aug. 28.—It was estimated that between 20 and 30 silk workers were on strike here today as the result of the refusal of some manufacturers to grant a price list demanded by the I. W. U. A dozen manufacturers granted the demands submitted last week, and on which an answer was demanded today, while several small shops refused.
